AutomWorx Custom Solutions & Integrations Services Datasheet

Our Consultants have over fifteen years of Automic software implementation experience

•

Maximize your Automic investment by understanding and leveraging more product capabilities – *especially with Automic Workload*

•

We develop custom solutions including proprietary migration utilities

•

AutomWorx is a software reseller and offers licenses, maintenance and Extended Support options

Snapshot – Who is AutomWorx?

- AutomWorx is an independent consulting company staffed with a team of highly experienced solution architects, consultants, and project managers with over fifteen years of experience working with Automic software for customers globally. We are here to assist you with all of your Automic needs – whether that involves new licensing, installation, upgrades, migrations, product training or Extended Support.

Custom Solution & Integrations Services for Automic Software and Underlying Systems

- You may benefit from custom solutions or system integrations pertaining to:

    o   Email systems and SMS push and notification management

    o   Web services across third-party, legacy applications or systems

    o   Custom applications or systems

    o   Security (Kerberos) and custom certificate management

    o   Social media, marketing, CRM, and other cloud-based applications

- AutomWorx offers end-to-end custom solution development and integration expertise:

    o   In-depth architectural analysis, business and technical requirements gathering, development, testing, deployment, and formal knowledge transfer and handoff

    o   Technical and sizing consultation around the hardware, operating systems, database management systems & third-party utilities for deploying your custom solution or performing custom integration tasks

    o   Installing the applicable software in your non-production and production environments

    o   **Proprietary, custom-written solutions to meet your business requirements**

    o   Establishing a Disaster Recovery plan and configuration with you

    o   Testing and issue remediation

    o   Deployment and go-live support

    o   Formal knowledge transfer and walkthrough

    o   Project management oversight

Automic Migration Services May Include Custom Solution or Integration Tasks

- If you have AppWorx software in place, you may need to <u>migrate</u> your existing job configurations to the Automic Workload Automation platform. We have written and successfully deployed migration utilities to mitigate business disruption.

- AutomWorx is not just focused on Automic to Automic migrations – we have also assisted Customers that are **considering a switch to Automic platform from alternative job scheduling programs.**

- In addition to Automic migrations, our consultants are highly proficient at helping you switch to new operating systems & database platforms; i.e., Windows, Linux and UNIX distributions.

- The latest version of Automic, Automic Workload, is Broadcom's go-to market recommendation software and is heavily developed so that customers can take advantage of the latest technologies.

- Automic Workload is a true enterprise software product that introduces many features that do not exist in AppWorx. Just some of the features that Automic Workload offers include:
    - Active/active Automation Engine (master) Configuration as an HA Solution
    - Support for multiple databases (Oracle, MS SQL, PostgreSQL and DB2)
    - Support for the majority of OS hardware offered in the market
    - Multi-client technology to help minimize the requirements of multiple non-production masters/environments
    - Analytics Reporting and Dashboards
    - OS Agent can run with lower Automic Software versions so there is no need to upgrade all your components at once
    - Zero Down-time Upgrade (ZDU)
    - Centralized Agent Upgrade (CAU) to help you schedule OS agent upgrades
    - Updated Rapid Automation Agents, including:
        - WebServices for both REST and SOAP calls
        - Oracle E-Business Suite, Oracle PeopleSoft, Oracle Hyperion, Oracle JD Edwards
        - Ellucian Banner
        - FTP, Informatica and others
    - API-enabled

Get Started with AutomWorx
