- Ellucian Banner
- Informatica
- Oracle JD Edwards
- Oracle E-Business Suite
- Oracle Utilities
- Oracle Retail
- PeopleSoft
- AMYSIS Advance
- SAP

Consulting Services Offered

AutomWorx Consulting is a leading provider of workload automation solutions, specializing in CA Automic, AppWorx, and UC4.

Deep Expertise and Experience

- Extensive Knowledge: AutomWorx consultants have years of experience working with these platforms, ensuring they can provide tailored solutions to your specific needs.
- Proven Track Record: We have a history of successful implementations and migrations, demonstrating the ability to deliver results.

Comprehensive Service Offerings

- Implementation: Implement workload automation solutions from scratch.
- Upgrades: Get assistance with upgrading your existing systems to the latest versions.
- Custom Solutions: If you have unique requirements, AutomWorx can develop custom solutions to fit your needs.
- Training: Training programs to help your team effectively use and manage the workload automation software.

Customer-Centric Approach

- Personalized Service: AutomWorx focuses on understanding your business objectives and providing solutions that align with your goals.
- Strong Support: They offer ongoing support and

maintenance to ensure your systems are running smoothly.

- Cost-Effective Solutions
- Optimized Processes: By automating your workflows, you can reduce manual errors and improve efficiency, leading to cost savings.
- Scalability: AutomWorx solutions can grow with your business, ensuring you have the capacity to handle increasing workloads.

We Can Help

Our consultants specialize in Automic OneAutomation, AppWorx and UC4 software implementations, and we offer end-to-end implementation expertise:

- Architectural analysis
- Technical and sizing consultation around the hardware, operating systems, database management systems & third-party utilities required to sustain your Automic environments
- New software installation in your non-production and production environments
- Establishing a Disaster Recovery plan and configuration
- Collaborating and putting a robust security plan in place
- Automic software configuration with expert job scheduling and reporting services
- Testing and issue remediation
- Go-live assistance
- End user and administrator knowledge transfer & formal education services
- Project management oversight with a specialization in Automic project deployments

“Even after we went live, we found AutomWorx very helpful when we ran into questions. If I could give them a rating higher than 10 out of 10, I would.”

Tony Puccio
