

AutomWorx Data & Automation Software Migration Services

AutomWorx is an independent consulting company staffed with a team of highly experienced solution architects, consultants, and project managers with extensive workload automation software expertise across multiple platforms.

AutomWorx Benefits

- Maximize your Automic® Automation investment by understanding and leveraging more product capabilities
- AutomWorx is an authorized Broadcom software reseller and offers software subscriptions, including SaaS, license renewals, and Extended Support plans
- We develop custom solutions, including proprietary migration utilities
- Extensive Automic software implementation experience

Migration Services

Depending on the version AppWorx, UC4, or Automic Automation software you have in place, you may need to migrate your existing job configurations to the Automic Workload Automation platform. Our senior consultants have written and successfully deployed the migration utilities needed to mitigate business disruption.

AutomWorx is not just focused on Automic to Automic migrations: we have also assisted customers that are considering a switch to the Automic platform from alternative job scheduling programs.

In addition to Automic software migrations, our consultants are also highly proficient at helping you switch to new operating systems and/or database platforms; i.e., Windows, Linux and UNIX distributions.

End to End Migration Expertise

- In-depth architectural analysis, business requirements gathering, job configuration and report mapping
- Technical and sizing consultation around the hardware, operating systems, database management systems & third-party utilities required to sustain your new Automic environments
- New software installation in your non-production and production environments
- Proprietary, custom-written migration utilities to map your existing job configurations to your new Automic environments
- Establishing a Disaster Recovery plan and configuration
- Testing and issue remediation

- Go-live assistance
- Project management oversight with a specialization in migrations

Are You Ready To Migrate?

- The Automic Automation application is Broadcom's go to market recommendation software and is heavily developed so that customers can take advantage of the latest technologies
- Broad support of automation software across multiple vendors
- AutomWorx will assist you with a successful migration from AppWorx to Automic Workload
- AutomWorx consultants have been migrating customers for over a decade
- AutomWorx offers product installation, education, data migration and integration services as part of your Automic migration services offering
- Automic Automation is a true enterprise software product that introduces many features that do not exist in AppWorx or other workload automation software products.

Automation Features Include:

- Active/active Automation Engine (master) configuration as a high availability solution
- Support for multiple databases (Oracle [AppWorx Master], Microsoft SQL Server, PostgreSQL and DB2)
- Support for the majority of OS hardware in the market
- Multi-client technology to help minimize the requirements of multiple non-production masters/environments
- Analytics Reporting and Dashboards
- OS agents run with lower Automic software versions so there is no need to upgrade all your components at once
- Zero Down-time Upgrade (ZDU)
- Centralized Agent Upgrade (CAU) to help you schedule OS agent upgrades
- Updated Rapid Automation Agents, including:
 - WebServices for both REST and SOAP
 - Oracle E-Business Suite, Oracle PeopleSoft, Oracle Hyperion, Oracle JD Edwards
 - Ellucian Banner
 - FTP, Informatca and others
 - API-enabled

Service Offerings

- Architecture & Design
- Assessment and Health Check
- Implementation
- Migration and Data Conversion
- Policy Development
- Pre-sales & POC
- Training & Education
- Transformation Services

About AutomWorx
