

Automic Workload Automation for SAP

AutomWorx is an independent consulting company staffed with a team of highly experienced solution architects, consultants, and project managers with extensive workload automation software expertise across multiple platforms.

AutomWorx Benefits

- Maximize your Automic® Automation investment by understanding and leveraging more product capabilities
- AutomWorx is an authorized Broadcom software reseller and offers software subscriptions, including SaaS, license renewals, and Extended Support plans
- We develop custom solutions, including proprietary migration utilities
- Extensive Automic software implementation experience

Get more out of your SAP investment with Automic Workload Automation, and use AutomWorx Consulting to get up and running quickly.

Automic Workload Automation can significantly enhance your SAP environment by:

Centralized and Automated Scheduling:

- **Streamlining Processes:** Automate the scheduling of SAP batch jobs, transports, and other tasks, reducing manual effort and errors.
- **Improved Efficiency:** Optimize resource utilization by scheduling jobs based on workload and priorities.

Enhanced SAP Landscape Management:

- **Simplified Change Management:** Automate SAP system changes, including transports and upgrades, ensuring consistency and reducing risk.
- **Improved Availability:** Proactively monitor SAP systems for performance issues and take corrective actions to maintain high availability.

Improved Compliance and Governance:

- **Audit Trail:** Maintain a comprehensive audit trail of all SAP activities, ensuring compliance with industry regulations.
- **Role-Based Access Control:** Implement robust security measures to control access to SAP systems and data.

Enhanced Disaster Recovery and Business Continuity:

- **Automated Failover:** Implement automated failover procedures to ensure business continuity in case of system failures or disasters.
- **Simplified Recovery:** Streamline the recovery process after incidents by automating routine tasks.

Integration with SAP Tools and Technologies:

- **Seamless Integration:** Integrate AutomWorx with SAP tools like SAP Solution Manager and SAP Cloud Platform to create a unified automation platform.
- **Extended Functionality:** Leverage AutomWorx's capabilities to automate tasks beyond SAP, such as database backups, network maintenance, and more.

Improved Performance and Efficiency:

- **Optimized Resource Utilization:** Avoid bottlenecks and improve system performance by effectively scheduling and managing SAP workloads.
- **Reduced Manual Intervention:** Minimize manual intervention, reducing the risk of human errors and improving overall efficiency.

By leveraging AutomWorx Workload Automation, you can streamline your SAP operations, improve efficiency, reduce risk, and enhance overall business performance.
