

Migrate to Automic from Control-M

AutomWorx is an independent consulting company staffed with a team of highly experienced solution architects, consultants, and project managers with extensive workload automation software expertise across multiple platforms

AutomWorx Benefits

- Maximize your Automic® Automation investment by understanding and leveraging more product capabilities
- AutomWorx is an authorized Broadcom software reseller and offers software subscriptions, including SaaS, license renewals, and Extended Support plans
- We develop custom solutions, including proprietary migration utilities
- Extensive Automic software implementation experience

Transitioning from BMC Control-M to Automic Workload Automation does not have to be painful for your team. AutomWorx Consulting will help preserve your existing jobs, workflows, and processes.

AutomWorx conversion programs have an over 80% conversion rate.

Use Automic SaaS, or deploy on-premises in your own data center.

Key Advantages of Automic Automation:

- **Predefined Templates:** Automic offers ready-to-use templates for specific applications, streamlining setup and reducing manual configuration.
- **Enhanced User Access:** Different users can easily access and manage their respective tasks within Automic, improving collaboration and efficiency.
- **Robust Architecture:** Automic's multi-tenancy architecture provides a scalable and secure environment for multi-client organizations. It can also be deployed as SaaS.

Considerations:

- **User Friendliness:** Automic utilizes an intuitive and easy-to-use interface
- **Documentation and Monitoring:** Automic provides comprehensive documentation
- **Modern Architecture:** Never run into limitations in terms of scalability and integration with modern technologies.
- **Reporting:** Robust reporting options.

Why Use A Workload Automation Consultant?

AutomWorx, a Broadcom Expert Advantage Partner, can significantly enhance the success and efficiency of your Automic implementation.

Expertise and Best Practices:

- **Deep understanding of Automic:** Consultants possess in-depth knowledge of Automic's features, capabilities, and best practices.
- **Proven methodologies:** We follow established implementation methodologies to ensure a smooth and structured process.

Tailored Solutions:

- **Needs assessment:** Consultants work with you to identify your specific automation requirements and objectives.
- **Customized implementation:** Get the Automic configuration that aligns to your business processes.

Risk Mitigation:

- **Avoid common pitfalls:** Experienced consultants help you steer clear of common challenges that delay conversions.
- **Mitigate risks:** They implement strategies to minimize risks and ensure a successful rollout.

Process Integrity:

- **Zero Downtime Upgrade (ZDU):** Environments can run in parallel until you are ready to go live.
- **Reduced Risk:** Minimize the risk of data loss or corruption.

Training

- **Everything Automic:** We help your team become Automic experts.

Ongoing Support and Maintenance:

- **Post-implementation support:** Consultants can provide ongoing support and maintenance to ensure Automic continues to operate smoothly.
- **Extended Support:** Reach the AutomWorx team directly, even after hours.
